With family and friends we gathered at table and You renewed us in the bonds that hold us faithful and fill us with gratitude. Bless those who have blessed us. RAILROAD DISASTERS

(Mr. GIBBONS asked and was given permission to address the House for one minute and to revise and extend his remarks.)

Mr. GIBBONS. Madam Speaker, last weekend downtown Baltimore was shut down due to the derailment of a freight train carrying hazardous chemicals.

Madam Speaker, just imagine what could have happened if that train was carrying high-level, highly radioactive nuclear waste, the world's most toxic, deadliest material known to man. Thousands of people would have been exposed to not only heavy smoke and soot but to invisible radiation that can kill them as well as any livestock or other crops within the area.

This scenario is not science fiction. The CBS news show "60 Minutes" detailed that train accidents due to track failure are happening at a rate of nearly one every 24 hours. That is a train accident once every day.

The Department of Energy wants to ship nuclear waste on our railways, past our schools, past our hospitals, through our neighborhoods and communities, and past schools and farms.

Madam Speaker, our responsibility is to protect the American public, not endanger them. We cannot allow the DOE to threaten the lives of our constituents.

EMBRYONIC STEM CELL RESEARCH

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Madam Speaker, as the debate over using Federal funds to support embryonic stem cell research goes forwards, I would urge my colleagues in this Chamber to consider the clear words of Pope John Paul II spoken to our President today, who said in Rome, "Experience is already showing how a tragic coarsening of consciences accompanies the assault on innocent life in the womb, leading to the accommodation and acquiescence in the face of other related evils such as euthanasia, infanticide, and, most recently, proposals for the creation for research purposes of human embryos, destined to destruction in the process."

The Pope went on to say, "A free and virtuous society which America aspires to be must reject practices that devalue and violate human life at any stage from conception until natural death."

May we in this Chamber, Madam Speaker, and our President heed the words of this gentle servant of God.

The SPEAKER pro tempore (Mrs. BIGGERT).
